

**Amendments to the Claims:**

The following claims will replace all prior versions of the claims in this application (in the unlikely event that no claims follow herein, the previously pending claims will remain):

1. (Original) A dispersion of a solid in an aqueous liquid, which includes as a dispersing agent, a polyalkylene glycol ester or amide of a fatty acid dimer and/or trimer.
2. (Original) A dispersion as claimed in claim 1 wherein the dispersing agent is of the formula (I):

where

Pol is the residue of a polymerised fatty acid with (nominal) removal of the carboxylic acid groups;

m is 2 (for a fatty acid dimer) or 3 (for a fatty acid trimer); and

each X is independently OM, where M is:

a hydrogen atom, a cationic salt forming species, particularly an alkali metal atom or an amine (including quaternary amine) or ammonium group; or

a group  $-(\text{AO})_n\text{R}^7$ ; or

a group  $-\text{NR}^8-(\text{AO})_n\text{R}^9$ :

where:

AO is an alkylene oxide residue, particularly an ethylene oxide or propylene oxide residue, and may vary along the chain;

n is from 1 to 100; and

$\text{R}^7$  is a hydrogen atom, a  $\text{C}_1$  to  $\text{C}_{22}$  alkyl group, a  $\text{C}_2$  to  $\text{C}_{22}$  alkenyl group, or an anionic group, which may include a charge balancing cation;

$\text{R}^8$  is a hydrogen atom, a  $\text{C}_1$  to  $\text{C}_{10}$  alkyl group, or a group of the formula  $-(\text{AO})_n\text{R}^9$  where AO and n are independently as defined above and  $\text{R}^9$  is independently as defined below; and

$R^9$  is a hydrogen atom, a  $C_1$  to  $C_{22}$  alkyl group, or a  $C_2$  to  $C_{22}$  alkenyl group, or an anionic group, which may include a charge balancing cation;  
provided that at least one X is a group of the formula  $-(AO)_nR^7$  or  $-NR^8-(AO)_nR^9$ .

~~2.~~ 3. (Currently amended) A dispersion as claimed in claim 2 wherein the dispersing agent is a compound of one the formulae (Ia), (Ib) or (Ic):

$[Pol]-(COO-(AO)_nR^7)_m$  (Ia); or

$[Pol]-(COO-NR^8-(AO)_nR^9)_m$  (Ib); or

$[Pol]-(COO-N(-(AO)_nR^9)_2)_m$  (Ic)

where: Pol, AO,  $R^7$ ,  $R^8$ ,  $R^9$  n and m are as defined in claim 2.

~~3.~~ 4. (Currently amended) A dispersion as claimed in claim 3 wherein AO is an ethylene oxide residue and  $R^7$  and  $R^8$  are each  $C_1$  to  $C_4$  alkyl groups.

~~4.~~ 5. (Currently amended) A dispersion as claimed in ~~any one of claims 1 to 3~~ claim 1 wherein the solid dispersed is at least one of: pigment; dye; dirt or soil particles; particulate ceramic material; magnetic material; extender or filler; optical brightener; textile auxiliary; drilling mud solids; personal care component; or agrochemical component.

~~5.~~ 6. (Currently amended) A dispersion as claimed in ~~any one of claims 1 to 3~~ claim 1 wherein the solid dispersed is or includes a physical sunscreen.

~~6.~~ 7. (Currently amended) A dispersion as claimed in claim ~~5~~ 6 wherein the physical sunscreen is a titanium dioxide or zinc oxide physical sunscreen.

~~7.~~ 8. (Currently amended) A dispersion as claimed in ~~any one of claims 1 to 3~~ claim 1 wherein the solid dispersed is or includes an inorganic or organic pigment or dyestuff and/or carbon black.

~~8- 9.~~ 9. (Currently amended) A dispersion as claimed in claim ~~7~~8 ~~wherein 8~~ wherein the inorganic pigment is at least one of titanium dioxide, zinc oxide, Prussian blue, cadmium sulphide, iron, vermillion, ultramarine, chrome pigments, including chromates, molybdates and mixed chromates and sulphates of lead, zinc, barium, calcium; and the organic pigment is at least one of azo, disazo, condensed azo, thioindigo, indanthrone, isoindanthrone, anthanthrone, anthraquinone, isodibenzanthrone, triphendioxazine, quinacridone and phthalocyanine pigments, lakes of acid, basic and mordant dyes.

~~9- 10.~~ 10. (Currently amended) A dispersion as claimed in ~~any one of claims 1 to 3~~ claim 1 wherein the solid dispersed is or includes an extender or filler.

~~10- 11.~~ 11. (Currently amended) A dispersion as claimed in claim ~~9~~ 10 wherein the extender or filler is at least one of talc, kaolin, silica, barytes or chalk.

~~11- 12.~~ 12. (Currently amended) A dispersion as claimed in ~~any one of claims 1 to 3~~ claim 1 wherein the solid dispersed is or includes a particulate ceramic material.

~~12- 13.~~ 13. (Currently amended) A dispersion as claimed in claim ~~11~~ 12 wherein the particulate ceramic material is at least one of alumina, silica, zirconia, titania, silicon nitride, boron nitride, silicon carbide, boron carbide, mixed silicon-aluminium nitrides or a metal titanate.

~~13- 14.~~ 14. (Currently amended) A dispersion as claimed in ~~any one of claims 1 to 3~~ claim 1 wherein the solid dispersed is or includes dirt or soil particles and the formulation additionally includes at least one detergent.

~~14- 15.~~ 15. (Currently amended) A dispersion as claimed in claim ~~11~~ 12 wherein the detergent is an anionic, nonionic, ampholytic or zwitterionic detergent or a mixture of more than one such type of detergent and the formulation additionally includes at least one builder and/or bleach and/or enzyme.

~~15.~~ 16. (Currently amended) A dispersion as claimed in ~~any one of claims 1 to 3~~ claim 1 wherein the solid dispersed is or includes an active agrochemical.

~~16.~~ 17. (Currently amended) A dispersion as claimed in ~~any one of claims 1 to 3~~ claim 1 in the form of an agrochemical suspoemulsion including an agrochemically active material which is dispersed in a first liquid, particularly an aqueous, component, a second liquid component being emulsified in the first liquid component.

~~17.~~ 18. (Currently amended) A dispersion as claimed in ~~either claim 15 or claim 16~~ wherein the active agrochemical is one or more plant growth regulators, herbicides, and/or pesticides.
